

NURSERY CLASS Summer Term 1

Expressive Arts and Design:

To be creative by how we show what we think and feel.
To build stories while we play.

Literacy:

To learn new rhymes and talking about our favourites.
To spot rhythm and rhyme in what we read.
To talk about what we have written.
To remember stories and make our own up.
To write our names.

Personal, Social and Emotional Development:

To know when people are happy or sad and to begin to help them.
To work and play together.
To use our words when we want to share something.
To talk to our friends while we play.

Plants and Growing

Understanding the World:

To talk about all the different plants and growing that we can find.
What plants need to grow and how they grow.
How to look after chicks and other animals.
To talk about what we have seen and how we think the world works!

Communication and Language:

To talk about and ask questions about what we are learning.
To talk to our friends and listen to them.
To use our communication to help us enjoy quality play learning.

Maths:

To recognise numbers 1 – 20.
To count accurately
To find 1 more or less.
To find, talk about and use shapes.
To know the days of the week.
To talk about time.

This is what we are learning at school!

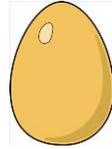

Physical development:

To talk about what happens to our bodies when we do lots of exercise.
To develop our muscles so that we can move in big and small ways (and hopefully hold a pencil correctly!)

NURSERY CLASS Summer Term 1

Plants and Growing

These are just a few ideas to help your child extend their learning at home.

Expressive Arts and Design:

- Sing simple songs together.
- Paint, draw, stick and cut pictures.
- Find new ways to make noise!
- Join in their games and stories.

Physical development:

- Go to the park together.
- Keep trying new foods.
- Encourage your child in their new independence.
- Give them lots of opportunities to play with things that need lots of grip like playdough.

Personal, Social and Emotional Development:

- Talk through any arguments explaining how to solve them.
- Encourage your child to use their words to say what they need and want
- Help them name how they are feeling.

Communication and Language:

- TALK with your child not only at them.
- Encourage your child to use sentences not just single words by repeating back what they say in a sentence.
- Ask the to get things that are on top, under, beside or behind other things.
- Talk together about everything!
- Ask them 'who', 'what', 'where' and 'when' questions.

Maths:

- Use days of the week to explain when things will happen.
- Ask/ remind your child which day it is each morning.
- Count anything!
- Talk about the shape of objects.
- Spot shapes all around you.
- Name the numbers that you see all around you.

Understanding the World:

- Point out changes around you (plants growing, teeth falling out)
- Ask your child why they think things happen.
- Praise quality questions and help them find the answers.

Literacy:

- Go to the Idea Store.
- Look at books together.
- Read and practice the sight words that will be sent home.
- Practice writing their name.
