08.03.21

Dear parents,

We have just received the following information from the Department of Education.

Asymptomatic testing information for parents and adults in households with children at primary, secondary school or college

NHS Test and Trace announced earlier this week, that all adults in households with school and college age children without symptoms can now access regular rapid coronavirus (COVID-19) testing.

Undertaking regular, rapid coronavirus (COVID-19) testing helps reduce transmission of the virus. Parents and other adults in households with children at school or college, **who do not have symptoms**, can now access regular, rapid coronavirus (COVID-19) testing. This includes childcare and support bubbles.

Tests are fast, easy and completely free. There are [different ways](#) for a household, childcare or support bubble to collect their test to take at home, twice-weekly:

- by collecting a home test kit from a local test site – anyone aged 18 or over can collect 2 packs of 7 tests
- by ordering a home test kit online – please do not order online if you can access testing through other routes, this frees up home delivery for those who need it most
-

If you have any queries about the tests, and you live in England, please call 119 (free from mobiles and landlines). Lines are open every day from 7am to 11pm.

Children of primary school age (and below) without symptoms are not being asked to take a test.

Testing is voluntary, but strongly recommended to all who are eligible. Alongside the vaccine, washing hands, wearing face coverings, and maintaining social distancing, rapid testing plays a vital role in reducing transmission rates. Getting into the habit of regular testing as part of our everyday lives will help us all to play our part and do what we can to protect each other.

Take a test at a rapid lateral flow test site

You can take a rapid lateral flow test at a local site. Testing at these sites is assisted, which means you will swab yourself under the supervision of a trained operator.

You may need to book an appointment.

[Find your nearest rapid lateral flow test site.](#)

Collect test kits

You can collect 2 packs of home test kits at a local collection point. Each pack contains 7 tests.

Anyone 18 or over can collect.

Most collection points are open from 1.30pm to 7pm. You can check online if the location is open or busy before you go. You do not need to make an appointment.

Do not visit a collection point outside opening hours, as it may be used to test people with coronavirus symptoms outside these times.

[Find your nearest home test kit collection point.](#)

Order home test kits online

If you cannot get tested at your workplace, or are unable to go to a test site or collect test kits, you can order a home test kit online.

Do not order online if you can get a test through other methods. This frees up home delivery for those who need it most.
